

9557-70 Series Network Enabled Stored Value Copy Card Payment Solution

Network connectivity provides enhanced support features like in place firmware updates or remote diagnostics. You can add the optional Jamex Automated Reporting Software for email reporting of bypass use, low change condition, bill box status and cash out reports. This gives staff the ability to manage several Jamex 9550 series vend stations in different locations.

MODEL 9557-70

Model 9557-70
(shown with optional base)

- Expanded payment method with an integrated Jamex Copy Card Reader
- Encourages patron loyalty and repeat visits through location-specific Copy Cards
- Accepts proprietary Jamex Stored Value Cards
- Cards can be customized for your site
- A server back end is not needed because the value is stored on the cards
- Value can be added to cards directly from the vend station
- Provides Self-Service access control to your photocopier
- Network enabled for in-place firmware updates, remote support sessions, MFP reconfiguration, and optional Software Suite to send event and meter reports
- Allows for individual pricing method of payment (cash vs. Copy Card)
- Accepts any combination of nickels, dimes, quarters, dollar coins
- Accepts \$1, \$5, \$10, \$20 bills
- Unused cash credit returned as change
- Includes bypass key for service/staff copies with enhanced features of time or value limits for no charge use
- Two line display shows instructions, credit balance and reconciliation data
- Adapts for most major currencies with optional international coin and bill acceptors
- Quick configuration service modes (USB-CSV file configuration for fleet)
- USB expansion ports for exporting meter information and sharing of configuration settings
